Emirates Mars Mission (EMM):
ADCS Subsystem Technical Memorandum
ADCS-EMM-XXX
SHORT DESCRIPTIVE TITLE (12 WORDS OR LESS)

Prepared by	J. Doe, ADCS
-------------	--------------

Status: status description
Scope/Contents
Include a short summary of what this system engineering report is about. Should be 300 words or less.

Rev:	Change Description	By

1	Introduction	1
2	Obtaining an ADCS Memo Number	1
3	Report Formatting and Styling	2
3.1	Equations	2
3.2	Citation	2
3.3	Figures	2
3.4	Tables	2
4	Acknowledgment	2
5	Notation	2

Fig. 1: Sample Figure Inclusion.

1 Introduction

Provide a brief introduction to the material being discussed in this report. For example, include what the motivation is, maybe provide a supportive figure such as Figure 1, reference earlier work if needed in a literature review.

2 Obtaining an ADCS Memo Number

To obtain an ADCS memo number, navigate to the shared EMX FTP folder:

EMX/

06 Spacecraft Bus (Landin)/

Subsystems/

ADCS/Documents/ADCS Memos/EMM ADCS Memo Log.xlsx

Open the Microsoft Excel file “EMM ADCS Memo Log.xlsx”. In it, you find a list of all memo numbers, titles, authors, etc. Pick the next slot, and fill in your report information. Next, at the top of the \LaTeX template file, replace the default XXX value of the MemoNumber command with the actual value.

3 Report Formatting and Styling

3.1 Equations

Equations are centered with the equation number flush to the right. In the text, these equations should be referenced by name as Eq. (1) or Equation (1) (e.g., not eq. 1, (1), or Equation 1).

$$a = b^2 \tag{1}$$

3.2 Citation

The citation of bibliographical references is indicated in the text by superscripted Arabic numerals, preferably at the end of a sentence. This is the default style included in this report \LaTeX class.

References listed at the end of the paper are indicated in the text by a superscript Arabic number. If this causes confusion in mathematics or if a superscript is not appropriate for other reasons, this can be expressed as (Ref. 1).

3.3 Figures

Illustrations are referred to by name in the text as Figure 1, Figure 2, etc., or, Figures 3 and 4 (e.g., not figure 1, Fig. 1, or *Figure 1*). Captions are in title case (miniscule lettering with the first letter of major words majuscule); they are 10-point serif font and centered below the figure as shown in Figure ???. Each illustration should have a caption unless it is a mere sketch. An explanatory caption of several sentences is permissible. Each included illustration must be called out (mentioned) in the text. Ideally, figures should appear within the text just before they are called out.

The figure files (PDF preferred) should be stored in a common “Figure” sub-folder. If available, any drawing documents used to create this figure can be stored in a “Support” sub-folder.

3.4 Tables

Tables are referred to by name in the text as Table 1, or, Tables 2 and 3 (e.g., not table 1, Tbl. 1, or Table 1). The title is centered above the table, as shown in Table 2. The minimum number of lines needed for clarity is desired. The table font may be adjusted smaller than the body text as necessary.

Table 2: A Caption Goes Here

Animal	Description	Price (\$)
Gnat	per gram	13.65
	each	0.01
Gnu	stuffed	92.50
Emu	stuffed	33.33
Armadillo	frozen	8.99

4 Acknowledgment

Any acknowledgment which the author or authors wish to make may appear here.

5 Notation

If mathematical symbols require definition, a table of notation should appear here. A footnote near the beginning of the paper where mathematics is introduced should direct attention of the reader to this table.
